REPORT OF MOULTONBORO FIRE DEPARTMENT

During the year ending December 31, 1939, there have been twenty-three calls, involving fires with an estimated damage of $2,060.00 and one out of town fire. Six of the twenty-three calls were received and responded to by the Center Harbor Fire Department.

Last spring, the chief and another member attended the ten sessions of the New Hampshire Firemen's Training School, conducted under the direction of the State Board of Education. The course consisted of much valuable information on fire fighting.

The members of the Department have shown commendable promptness in responding to fires, which has greatly helped to keep the fire loss at a low figure during the past year.

This year the forest fire hazard will be greater than ever. Every precaution should be taken and everyone building a fire in the open must have a permit from the local fire warden.

Respectfully submitted,

JOHN RANDALL, Chief

REPORT OF SUPERINTENDENT OF SCHOOLS

EDUCATIONAL POLICY

We hear and read a great deal these days about democracy. The experience of European countries who have tried democracy and failed proves to us that democracy is not just a form of government with a written constitution. It is a way of thinking and believing on the part of people. This understanding and faith, vital to our country's existence, can be fostered in our public schools. One of the purposes of education is to develop a loyalty to the American way of life.

Travelers in Germany and Italy from this country find the youth of those nations full of enthusiasm for their leaders and are disappointed at the thought that there is no such enthusiasm for their country on the part of children in the United States. We tend to take our heritage of freedom as a matter of course, and are likely to lose the realization that it is a precious and costly thing. One educator has said, "To make democracy work we must make a religion out of it."

Experience has shown that it is not enough to talk about good citizenship and to understand the workings of our town meetings, national elections, and the duties of various officers. Our young people must learn to be citizens by practicing good citizenship. The school that can permit boys and girls to exercise self-control, to make their own decisions, to learn to work with others and not to shirk responsibility, is doing its part to make America a better country to live in.

RECENT CHANGES IN SCHOOL LAWS

At the last session of the General Court two important changes in the state educational laws were made. One of these dealt with the education of handicapped children and the other with regulations affecting school transportation.

Heretofore pupils who were handicapped through lameness, deafness, blindness, or other physical defect have been excused from school attendance on that account. Any education which they received has been provided for them at their parents' expense. The new law requires that such children have either transportation to school (no matter how near they may live to the school building) or, if they are unable to attend school, instruction must be provided for them at home at the expense of the district. This requirement does not apply in cases of temporary handicaps such as a broken leg or illness but only to those whose handicap is permanent.

The other new law has given to the State Motor Vehicle Department the authority to make and enforce regulations regarding school buses. Regulations for this school year (until July 1, 1940) have recently been issued. It is expected that these regulations will be changed from year to year in order to provide greater safety and comfort for children who are carried to school.

SCHOOL BUILDINGS

A major improvement has been made this past summer at Greene's Corner. This consisted of repairing the foundation and floor sills, adding windows on the south side, and the installation of new toilets. Moving the stove has greatly increased its heating efficiency, The

new windows not only provide better light and sunshine (unknown in the past) but also a clear view of the playground. The new septic toilets are not only sanitary but their new location is superior to the old.

THE SCHOOL NURSE

Miss Eva Nelson who has serve us as school nurse for the past two years was unable to return to her duties in September because of illness. Her work has been taken over by Miss Ruth Allen. Miss Allen comes to us from Dover and has several years of experience in this work.

ACKNOWLEDGMENTS

There is a fine spirit of cooperation in Moultonboro shown by the school board, teachers, school nurse, pupils, and other people of the community. This is much appreciated. Let us continue to work together for the good of our children.

REPORT OF SCHOOL NURSE

This report is a summary of the work done by the school nurse from September 5, 1939 to January 1, 1940.

Pupils inspected	87
Visits to schools	29

Dr. Frank Lovering made a physical examination on all pupils in all schools. His ability and kindness and knowledge of the school children of Moultonboro made these examinations thorough and worthwhile, and a real education to me. Notices of all defects found on examination have been sent to all parents.

One child has been fitted to glasses through County funds.

Dental and tonsillectomy clinics are being planned to take place before the end of the school year.

The cooperation of the superintendent, members of the school board, teachers and parents of the community has been very much appreciated.

Respectfully submitted,

RUTH E. ALLEN, R. N.
